## PROFESSIONAL SUMMARY

Frontend Developer with 4+ years of experience in WordPress CMS development, specializing in responsive business and e-commerce websites using WordPress, Elementor Pro, ACF, WooCommerce, and Shopify. Recently expanded into React.js frontend development using React.js, JavaScript (ES6+), Vite, Tailwind CSS, Context API, and React Router.

Experienced in Figma to WordPress conversion, theme customization, plugin configuration, website migration, hosting management, SMTP setup, form handling, performance optimization, and on-page SEO. Skilled in using Git, GitHub, Railway, Vercel, Cursor AI, GitHub Copilot, Claude AI, and ChatGPT to streamline development and deployment workflows. Passionate about building clean, responsive, and user-focused web applications while continuously learning modern frontend technologies.
