NADIA NISAR

WordPress Expert & Frontend Developer · React.js · Next.js · Shopify

4+ Years Experience · Custom Plugin Development · REST API · Service-Based Websites · E-commerce

PROFESSIONAL SUMMARY

WordPress expert and Frontend Developer with **4+ years of experience** building responsive business, service-based and e-commerce websites. Specialized in WordPress CMS development with Elementor Pro, ACF, WooCommerce and Shopify, including **custom theme development, custom plugin development and WordPress REST API integration**.

Expanded into modern JavaScript frameworks, building frontends with **React.js and Next.js** using JavaScript (ES6+), Vite, Tailwind CSS, Context API and React Router, connected to REST APIs.

Experienced in Figma-to-WordPress conversion, theme customization, plugin configuration, website migration, hosting management, SMTP setup, form handling, performance optimization and on-page SEO. Uses Git, GitHub, Railway, Vercel, Cursor AI, GitHub Copilot, Claude AI and ChatGPT to streamline development and deployment. Focused on clean, responsive and user-focused web applications, and continuously learning modern frontend technologies.

PROFESSIONAL EXPERIENCE

WordPress & Frontend Developer
Nov 2024 – May 2026

724.One — Lahore

- Built responsive business, custom service-based and e-commerce websites with WordPress, WooCommerce and Shopify
- Converted Figma designs into pixel-accurate, responsive WordPress websites
- Developed custom pages and dynamic layouts using Elementor Pro and ACF
- Developed custom plugin functionality and integrated the WordPress REST API where client requirements needed it
- Managed client projects independently, from requirements to launch
- Diagnosed and fixed WordPress and hosting issues

WordPress Developer
Sep 2024 – Mar 2025

Devsprings — Lahore

- Customized premium WordPress themes to match client branding
- Developed a recruitment / job board website
- Improved website performance and page speed
- Configured plugins and page layouts

WordPress Developer
Sep 2023 – Jul 2024

Topnotch Innovation Technology

- Converted Figma UI designs into WordPress
- Developed responsive pages for desktop, tablet and mobile
- Customized themes and templates

PROJECTS

React.js E-commerce Application

Tech stack: React.js · Vite · Tailwind CSS · Context API · React Router · REST API · JSON Server · Railway · Vercel · GitHub

- Built a complete e-commerce frontend using React.js with reusable components
- Implemented routing with React Router and global state management with Context API
- Integrated REST APIs for products, users and orders
- Built login and registration, user profile management and a wishlist system
- Developed shopping cart, checkout flow and order management
- Set up a JSON Server backend deployed on Railway; frontend deployed on Vercel
- Managed source code and versioning with Git and GitHub

Next.js Portfolio Website

Live site

Tech stack: Next.js · Vercel · GitHub

- Built and deployed a personal portfolio with Next.js on Vercel

WHAT I DELIVER

- **Custom WordPress websites** — Figma to WordPress, custom themes, ACF and Elementor Pro builds
- **Custom plugins & REST API work** — tailored functionality and integrations beyond off-the-shelf plugins
- **Service-based business websites** — booking, enquiry and lead-generation focused sites
- **E-commerce stores** — WooCommerce and Shopify setup, customization and optimization
- **Modern frontends** — React.js and Next.js applications deployed on Vercel
- **Maintenance & performance** — migration, hosting fixes, speed optimization and on-page SEO
